

NRL QA UGM – What's New?

Vincini G,
NRL, Melbourne, Australia

NRL QC UGM
Melbourne – 16 October 2018

Since we last met...

- Existing QConnect
 - “Colours”
 - HIVp24
 - ToRCH G, ToRCH M and HSV-2
 - NAT Viral Load
 - NAT Donor Screening and TriScreen

Since we last met...

- New QConnect QC releases

- HPV Series

- HEPR

- Pediatric series

- Pediatric G and M negatives

- Single marker IgM VZV, Measles, Mumps and Parvo

● Imminent – Pediatric G and HEPA

Q. Why do QCs take so long...?

- Making QCs is not easy
 - Identifying candidate materials
 - Suitable for all assays? Yes or no?
 - Validation of three lots
 - Stability data
 - Performance data
 - Regulatory in different jurisdictions

In-house vs commercial

- Making the first batch is easy
- Making the second batch not so easy...
- Peer group of ONE
- Define and validate all steps
 - Storage, in use, expiry, troubleshooting
- Data analysis

Presentations and workshops

- Athens, Greece

- Standardisation – Drs Neubling and Almond

- Kuala Lumpur, Malaysia

- 2nd NRL Workshop in Asia

- Vietnam – Hanoi

- QC workshop

Effective QC for Blood Screening

Wayne Dimech
